## **DETAILED ACTION**

### ***Priority***

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### ***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 10-29 are rejected under 35 U.S.C. 103(a) as being unpatentable over Casoli et al. (EP 1,335,171) in view of Cur et al. (EP 0,437,930). Casoli et al. disclose the claimed invention except for the intermediate space. Casoli et al. teach a single evacuated insulation space between the outer shell and the inner liner. Cur et al. teach that it is known to provide multiple compartments/spaces between the outer shell and inner liner. It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the housing of Casoli et al. with an intermediate space between the space K of Casoli et al. and the inner liner 14 of Casoli et al., as taught by Cur et al., in order to improve the insulative properties of the housing.

### ***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art is cited for the housing structure
5. THIS ACTION IS NON-FINAL.
